The Concur User Experience Evolution is a key initiative that will accomplish three primary goals.

- Modernize the user experience and increase the usability of Concur applications, while maintaining the ability to apply and enforce company policies.
- Implement features and functionality in a manner that provides clients with the maximum benefits for their Travel, Expense, and Invoicing needs, while minimizing change-management impacts.
- Allow effortless navigation and access to features for all products on the web and mobile devices.

- Profile Settings
- Sign Out (Log Out)
- Administer for Another User – Delegate, Proxy, Travel Assistant/Arranger

Additional Travel Pages

- Search Results Pages
- Travel Review Pages – NEW

Enhanced and New Pages

Concur Home Page – Fully Redesigned

In the current UI, the home page for Concur is known as My Concur. In the enhanced UI, the page is called the home page.
QUICK TASK BAR
The new Quick Task Bar gives users quick access to their most important tasks. The tasks that appear depend on the user's roles/permissions.

It also includes the count of associated tasks. As shown here, this user has 10 open reports.

- The user clicks a task for quick access to the associated page. For example, when the user clicks the **Open Reports** task, the page listing the user's expense reports appears.
- The user also has 18 available expenses. (*Available Expenses* is the new name for *Smart Expenses* – card charges, receipt images, e-receipts that can be used to create or attach to expense entries.)
- The **New** task provides one or more additional options. The user hovers the mouse pointer over **New** to start a new report, new cash advance, new request, etc. The options that appear depend on the user's roles/permissions.

MY TRIPS
This section appears just below the **Trip Search** section.
FACTS & STATS

THIS SECTION LETS YOU TRACK OF YOUR PERSONAL STATS AND READ HELPFUL HINTS.

![FACTS & STATS](image)

RETURNING TO HOME

Once you leave the home page, the Home menu is replaced by the Concur logo. To return to the home page, click the logo.

![Returning to Home](image)

Approvals Page – (if applicable)

The Approvals page is new. It contains all items that require the user's approval, such as trips, requests, reports, and cash advances. The user clicks a tab to quickly access each type of item that requires approval. The user clicks an individual item to open it. The user can click the check box for an item and click Approve, if the company configuration allows approval without opening. To access historical information, the user clicks the appropriate sub-menu option.

![Approvals Page](image)
For the most part, the enhancements involve look-and-feel, except:

- **Travel Map**: The Travel Map has been removed.

- **Travel policy**: In the current UI, there was a menu option called Travel Policy. It highlights all the travel policy rules enabled for the user/arranger’s travel class. In the enhanced UI, the link is in the footer:

---

**Menus**

Here is a quick look at some of the menu options that have moved.

---

**TRAVEL MENU**
**Approvals Menu (If Applicable)**

<table>
<thead>
<tr>
<th>CONCUR</th>
<th>Requests</th>
<th>Travel</th>
<th>Expense</th>
<th>Invoice</th>
<th>Approvals</th>
<th>Reporting</th>
<th>App Center</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>Budget Admin</td>
<td>Administration &gt; Company &gt; Budget Admin</td>
</tr>
<tr>
<td>Travel System Admin</td>
<td>Administration &gt; Travel &gt; Travel System Admin</td>
</tr>
</tbody>
</table>
Resizing – Responsive Design

If the width of the screen is reduced,  appears. Click to access the additional menu options.

If the width is further reduced (for example, to display on a tablet) the Administration menu moves from the upper-right corner and the icon below Help becomes Profile.
**Profile – Profile, Sign Out, Delegate, Proxy, Travel Assistant/Arranger**

Profile settings, sign out, and administer for another user (for the delegate, proxy, travel assistant/arranger) have been moved to the **Profile** menu.

In the enhanced UI, the user clicks **Profile** > **Profile Settings**. The changes in the **Profile Options** page involve look-and-feel except Expense credit Card. Refer to **Additional Expense Pages** in this document.

**Sign Out (Log Out)**

With the enhanced UI, users click **Profile** > **Sign Out**.
Administer for Another User – Delegate, Proxy, Travel Assistant/Arranger

The delegate, proxy, or travel assistant/arranger uses Profile to select a user. He/She clicks Profile, selects the desired user, and clicks Apply.

NOTES:

- If the delegate has 10 or less users, then they appear in a drop list. If there are more than 10, then the user enters the first few letters of the desired user’s name and selects from the search results.
- This section is used by delegates, proxies, and travel arrangers. If a user has more than one of these roles, the user selects the appropriate option.

The Profile menu option then becomes Administer for <name> and the single "user" icon becomes a double "user" icon.

To return to working for himself/herself, the user clicks Administer for <name> and then clicks End admin session.
Additional Travel Pages

Here are the other changes to Travel. Most enhancements involve look-and-feel.

ARRANGER VIEW HOME PAGE

In the current UI, arrangers in Travel see the Make this my homepage link (top right) when viewing the Arranger home page. This has been removed in the enhanced UI.

Now, arrangers can elect to have the Arranger page as the home page via Profile > Profile Settings > System Settings (left menu). In the Other Preferences section, in the Home Page list, the arranger clicks Travel Arranger View.

Search Results Pages

Change Flight Search, Filters, and Total Estimated Cost have moved from the right side of the search results page to the left side of the page.

Also note that – for air, car, hotel, and rail bookings – the Reserve Reserve button now reads Select Select.
Travel Review Pages – NEW

This is a new feature with the enhanced UI. This page allows the user/arranger to see, review, and change pertinent options about each segment. Here are a few samples:

- A review of the segments booked

```
REVIEW RENTAL CAR
Avis Car Rental Location details

<table>
