## Payments Fraud

Despite frequent fraud attempts, many businesses do not suffer financial losses because they implement strong fraud protection strategies. Is your organization protected?

**Check Fraud** ACH Fraud Commercial Card Fraud

If your company writes checks, put the following services on all your checking accounts:

- **Positive pay** systematically compares checks presented for payment to your issued-check files to detect serial numbers and dollar amounts that don't match.
- **Payee validation and payee match** identifies payee names that have been altered.
- **Reverse positive pay** is an alternative to positive pay services for companies unwilling or unable to transmit issued-check files to Wells Fargo. You get the opportunity to review checks presented for payment and determine if they should be paid or returned.

Deposit products offered by Wells Fargo Bank, N.A. Member FDIC.

Check Fraud   ACH Fraud   **Commercial Card Fraud**

The best defense against commercial card fraud combines up-front controls, education and training, and regular compliance monitoring. Use these [ten best practices \(PDF\)](#) to help protect your company from commercial card fraud. Wells Fargo makes it safer to purchase online with [MasterCard SecureCode and Verified by Visa](#) purchase protection.

**MasterCard. SecureCode.**   **Verified by VISA**

Wells Fargo makes it safer to purchase online with MasterCard SecureCode and Verified by Visa purchasing protection.

Once you enroll in MasterCard SecureCode or Verified by Visa, you'll have a single password to use when you make purchases at participating online stores with your commercial card.

**Added safety when you shop online**

With MasterCard SecureCode and Verified by Visa:

- **Only you can use your card.** Because you are the only one who knows your password, you are the only one who can use your card.
- **It's easy to use.** When you shop at participating online merchants, simply enter your MasterCard SecureCode or Verified by Visa password when you are prompted. Then you can complete your transactions as you usually do.

**Fee**

There is no charge — MasterCard SecureCode and Verified by Visa are free to cardholders and their companies.

**It's easy to enroll**

- Register your [Wells Fargo commercial MasterCard](#).
- Register your [Wells Fargo commercial Visa](#).
- **When you make a purchase** at participating online merchants, enter your password during check-out.

**European cardholders**

**Your Password is your protection. Get yours today.**

**Introducing added safety when you purchase online**

You can protect your WellsOne™ Commercial Card with a unique password for online purchasing. All you have to do is register with Verified by Visa today.

Every time you enter your WellsOne™ Commercial Card number to make a purchase at a participating online merchant, you'll be asked to supply your password before your transaction can be completed. Only you will be able to use your WellsOne™ Commercial Card for internet purchases. Registration is quick and easy.

**Purchase secure. Purchase smart. Here's how.**

1. Start the purchase process by entering your WellsOne™ Commercial Card number
2. You'll then be asked to supply your secret Verified by Visa password.
3. Submit your password and your transaction is completed quickly and safely.
